

SUMMARY PROGRESS REPORT

BEHAVIORAL HEALTH REFORM

THE DEVELOPMENT OF COMMUNITY-BASED SERVICES

January Activities

Region 1:

- The dual diagnosis program at RWMC was operational in October 2005, and eight consumers have been served through December 2006.

Region 2:

- Ten consumers were EPC'd and eleven potential EPC's were diverted to voluntary care through provider requests for assistance.
- We had to revamp the med box program in order to meet pharmacy regulations. We have created a partnership with a local pharmacy to help fill this void. This will help with our need for medication management.

Region 3:

- MPC Board of Directors reviewed remodeling costs and is recommending pursuing additional funds for completing the bed-based facility as a stand-alone on the adjacent property. This will be at a lower cost than the remodel but is still more than the funding that was originally allocated.
- Medically assisted detox is pending the renovation of bed based services.
- Region 3 had its first participant move from NRC into the Dual Disorder Residential program. Challenges ahead will be in the continued development of additional staff.

Region 4:

- Faith Regional Health Systems FRHS target date for acute service implementation continues to be October 1, 2006.
- Region 4 Emergency System Coordinator has met with the Madison Co. Attorney and finalized the procedure for outpatient commitments. The procedure was presented at the Norfolk Emergency meeting on January 28. Implementation is anticipated in February.

Region 5:

- Ten consumers had been enrolled in ACT as of 12/31/05.

Region 6:

- The new sixteen (16) bed Subacute is working on finding a location to provide services in the community.
- Community Alliance has a total of 45 consumers in Reform services. Community Alliance has identified additional Community Services at month end in order to continue to open up Res. Rehab beds.
- Intensive Community Services have started and has served seven consumers through Community Alliance and six through Salvation Army.
